

A Person

needs to

set up an  
model

*so that*

deaf and dumb  
people can able to  
convey their  
message to normal  
people with the  
help of gestures

A Person

needs to

Build the  
voice  
conversion  
device

so that

They can  
able to  
understand  
clearly

A Person

needs to

Transform the  
gestures into  
speech for  
human  
understandable

so that

They can  
convey their  
message to  
normal person
